CITY OF
TORRANCE

DAN WALKER
MAYOR

December 27, 2005

The Honorable Arnold Schwarzenegger
State Capitol Building
Sacramento, CA 95814

Re: California's Greenhouse Gas Emissions Reduction Targets

Dear Governor Schwarzenegger:

At the United Nations World Environment Day in San Francisco last June, you sent a signal to the rest of the country – that California is serous about reducing our contributions to global warming.

The City of Torrance urges you to move forward expeditiously in implementing strategies to reduce greenhouse gas emissions. We support your goal to ultimately reduce greenhouse gas emissions to 80% below 1990 levels.

California will benefit from policies that support development and investment in clean, efficient energy and innovative technologies that will help the environment create new jobs and help the economy grow.

California must start now setting scientists and engineers to work on developing clean, safe, affordable energy and transportation solutions.

The City of Torrance urges you to implement strategies to reduce greenhouse gas emissions.

Sincerely,

DAN WALKER
Mayor
